Online Access to Learning Resources

The Moran CORE website is an open-source, free multi-media ophthalmology education resource for residents, fellows, students, and ophthalmologists worldwide.

Sharing Worldwide

Moran CORE is reaching individuals domestically and internationally, and it is leaving its mark as an unparalleled ophthalmology resource.

www.morancore.med.utah.edu

- 31,000 page views
- 500 pages of new content
- 39% returning visitors
- Visitors from 117 countries

Collaboration Between Health Sciences

The Moran Eye Center, Eccles Health Sciences Library, and e-channel collaborate to produce Grand Rounds, Resident Lectures, and Surgical Video Submissions.

- Submissions welcome from faculty, fellows, residents, and students in the U.S. and abroad.
- Posted material approved by the Moran Editorial Board.

Specialized Knowledge Passed On

Ophthalmologists now have exceptional access to a multimedia repository that complements their specialized training wherever they live in the world.

- Excellent preparation for challenging surgical cases
- International curriculum for outreach and international partners
- Best practices help efforts to combat preventable blindness worldwide
